

Hello,

Thanks for your patience with the rescheduling of the next meeting of our Forest and Rangelands Assessment Steering Committee. We realize this is short notice, but we hope you can join us Thursday, November 7, 2013.

The meeting topic is: **“Green Infrastructure, Sustainable Recreation, and Connecting People to the California Landscape”**. In an era where digital gadgets increasingly provide a sense of space and place and our open spaces are constantly threatened, this topic is both important and meaningful.

Please join us to explore this topic along with a panel of topic experts:

- **Larry Orman** – *Executive Director*, GreenInfo Network
- **Bob Kingman** – Mt. Lassen Area Manager, Sierra Nevada Conservancy
- **USFS Region 5** representative (TBD)

We invite you to participate in a discussion and share with us your ideas and concerns about the conservation of open spaces in California and how we connect people to these landscapes. This discussion will inform our direction on covering this topic in the 2015 assessment.

For background about the upcoming meeting, the assessment processes, or FRASC, please see our website: <http://frap.fire.ca.gov/frasc>

**What:** **FRASC Quarterly Meeting: Green Infrastructure, Sustainable Recreation, and Connecting People to the California Landscape**

**When:** Thursday, November 7, 2013  
9:00 - 12:00

**Where:** USFS Wildfire Conference and Training Center  
3237 Peacekeeper Way  
McClellan, CA ([map](#)) ([driving directions](#))

The meeting will also be available via webinar: [click here to register](#)

We hope you are able to attend and we look forward to hearing what you have to say. Please suggest this meeting to friends and colleagues you think may be interested. RSVPs to [kelly.larvie@fire.ca.gov](mailto:kelly.larvie@fire.ca.gov) are greatly appreciated.

See you there!

FRASC meetings take place on a quarterly basis and serve as a forum for participants to provide input on a broad array of issues affecting forests and rangelands across California. In addition to providing input into our next assessment your participation will help inform and improve collaboration on the management of forest and rangeland resources.
