The Fire and Resource Assessment Program (FRAP) of the California Department of Forestry and Fire Protection and the USDA Forest Service coordinate land cover mapping and monitoring within California (LCMMP). This program generates data that describe the extent and condition of various land cover types, and the magnitude and cause of land cover changes. For more information, please visit [http://frap.cdf.ca.gov/projects/land\\_cover/mapping/index.html](http://frap.cdf.ca.gov/projects/land_cover/mapping/index.html) or <http://www.fs.fed.us/r5/rs/>

Projection Albers  
Scale 1:150,000  
at 36° x 44"  
December 02, 2003

The State of California and the Department of Forestry and Fire Protection make no representations or warranties regarding the accuracy of data or maps. Neither the State nor the Department shall be liable under any circumstances for any direct, special, incidental, or consequential damages with respect to any claim by any user or third party on account of or arising from the use of data or maps.

Obtain FRAP maps, data, metadata and publications on the Internet at <http://frap.cdf.ca.gov> or from CDF-FRAP, 1920 20th Street, Sacramento, CA 95814, (916) 227-2651.

Arnold Schwarzenegger, Governor,  
State of California  
Michael Chrisman, Secretary for Resources,  
The Resources Agency  
Andrea E. Tuttle, Director,  
Department of Forestry and Fire Protection
